

COMPOSITE DECK FASTENING / GROOVED + SOLID BOARD

COLOR-MATCHED TO TREX, FIBERON, TIMBERTECH. HIDDEN OR FACE: ONE SYSTEM.

Composite decking needs a screw that doesn't strip the groove, doesn't telegraph through the cap layer, and doesn't leave a rust ring six months later. Muro's composite coil gives you ShieldGuard corrosion resistance and the right thread geometry, grooved or face-screw, with depth control on every board.

- ShieldGuard epoxy: 1,500-hr salt spray for composite in outdoor conditions
- Color-matched brown, green, and gray to match composite board colors
- Grooved board: hidden clip system, no face fasteners
- Solid board: face-screw with compound drive for clean countersink
- Twinfast Type 17 tip: no pre-drill through composite cap layer
- Coil on FDVL43 (150/fill) for consistent depth across every board
- Depth control critical: over-driving blows through the cap layer

SHIELDGUARD COIL / FDVL43

ES8212WLP-B	Brown #8 x 2-1/2"	1,800/box	\$60.00
ES8212WLP-G	Green #8 x 2-1/2"	1,800/box	\$60.00
ES8212WLP-GY	Gray #8 x 2-1/2"	1,800/box	\$60.00

THE SYSTEM

FDVL43 Speed Driver

150-screw coil. Stand-up T-handle. Adjustable depth control.

ES8212WLP-B

\$60.00

Brown #8 x 2-1/2" ShieldGuard 1,800/box

ES8212WLP-GY

\$60.00

Gray #8 x 2-1/2" ShieldGuard 1,800/box

CH7390 Ultra Driver

Strip format, 30/fill. Same screws, strip.

DEPTH CONTROL: CRITICAL ON COMPOSITE

Composite decking has a thin cap layer that blows through with an over-driven screw. The FDVL43 adjustable depth stop delivers repeatable countersink across every board, protecting the cap and keeping the surface clean.

COMPATIBLE BRANDS

Trex / Fiberon / TimberTech
Azek / Wolf / MoistureShield

COMPOSITE DECK

SHIELDGUARD COIL + HIDDEN CLIP OR FACE-SCREW FDVL43 + CH7390

ShieldGuard epoxy coated coil and strip screws for composite decking. Color-matched brown, green, and gray. Grooved board hidden clip or solid board face-screw. 1,500-hr salt spray. Coil on FDVL43 (150/fill). Strip on CH7390 (30/fill).

- ShieldGuard: 1,500-hr ASTM B117 + 30-cycle Kesternich
- Colors: brown, green, gray matched to major composite brands
- Grooved board: hidden clip. Solid board: face-screw.
- Depth control: adjustable stop on FDVL43 protects cap layer
- Type 17 tip: no pre-drill through composite surface

COIL / FDVL43

ES8200WLP-G Green #8 x 2" 1,800/box \$66.00
ES8200WLP-GY Gray #8 x 2" 1,800/box \$66.00
ES8212WLP-B Brown #8 x 2-1/2" 1,800/box \$60.00
ES8212WLP-G Green #8 x 2-1/2" 1,800/box \$60.00
ES8212WLP-GY Gray #8 x 2-1/2" 1,800/box \$60.00
ES8300WEP-B/G/GY Brown/Green/Gray #8 x 3" 900/box \$39.00

STRIP / CH7390

ES8200WMSU-G/GY Green/Gray #8 x 2" 1,800/box \$56.00
ES8212WMSU-B/G/GY Brown/Green/Gray #8 x 2-1/2" 1,500/box \$56.00
ES8300WMSU-B/G/GY Brown/Green/Gray #8 x 3" 1,200/box \$56.00

KEY SPECS AT A GLANCE

Coating	ShieldGuard epoxy
Salt spray	1,500 hr ASTM B117
Colors	Brown / Green / Gray
Grooved board	Hidden clip compatible
Solid board	Face-screw with cap
Coil tool	FDVL43 (150/fill)

GROOVED VS SOLID BOARD

Grooved board composite uses hidden clips in the groove: no face screws visible. Solid board uses face-screw with a color-matched cap or countersink. Both formats run the same ShieldGuard screw.

COMPATIBLE TOOLS

FDVL43 (coil, 150/fill)
CH7390 Ultra Driver (strip, 30/fill)
