

OEM / TRAILER / RV / PONTOON ASSEMBLY

COLLATED METRIC. SELF-DRILLING INTO ALUMINUM. NO PRE-DRILL. NO COMPETITOR.

RSM series gives OEM assembly lines the only collated metric screw that self-drills into aluminum in a single pass. Wood or composite flooring to aluminum frame: no pre-drill, no clearance pass, no loose fasteners. Runs floor-level on the FLVL43 from a standing position.

- No pre-drill into aluminum or steel frames
- M6 metric sizing matches OEM engineering specs exactly
- Type 410 stainless steel for marine, outdoor, and OEM environments
- Self-tapping thread pulls wood or composite flush to aluminum in one pass
- 1,800 screws per coil: continuous production feed, no loose bins
- FLVL43 floor-level driver: stand-up operation across full deck assembly
- No competitor makes this in a collated format

RSM SERIES (SELECTED)

RSM644SFL M6 x 44mm (#14 x 1-3/4") Type 410 SS 1,800/coil Quote Only

Drive: #3 Square **Tip:** Self-drilling **Thread:** Self-tapping

UPC: 756793018936

THE SYSTEM

FLVL43 Floor Driver

100-screw coil. Floor-level stand-up. No bending across deck.

RSM644SFL

Quote

M6 x 44mm Type 410 SS. Wood/composite to aluminum. 1,800/coil.

WHY COLLATED ON THE ASSEMBLY LINE

Loose fastener bins on a production floor mean dropped screws, slow retrieval, and misfeeds. RSM644SFL coil runs 1,800 without a reload. The FLVL43 feeds continuously and the operator stays on station. That's the throughput difference on a high-volume build.

INDUSTRIES

Pontoon / Marine OEM

RV / Trailer / Bus / Truck Body

RSM SERIES

COLLATED METRIC SELF-DRILL TYPE 410 SS WOOD / COMPOSITE TO ALUMINUM

RSM collated metric screws for OEM flooring assembly. Self-drilling Type 410 stainless, M6 sizing, 1,800-screw coil. Eliminates pre-drill step in wood-to-aluminum connections. Runs on FLVL43 floor-level driver from standing position. No competitor equivalent in collated format.

- Self-drilling Type 410 SS: no pre-drill into aluminum frames
- M6 metric sizing: matches OEM engineering specs
- 1,800/coil: continuous production feed on FLVL43
- Fastens wood or composite flooring to aluminum or steel
- #3 square drive, self-tapping thread
- Sole-source category: no collated competitor

RSM644SFL

Part Number: RSM644SFL

Size: M6 x 44mm (#14 x 1-3/4")

Material: Stainless Steel, Type 410

Tip: Self-drilling **Thread:** Self-tapping

Drive: #3 Square **Collation:** Coil

Qty: 1,800/coil **Pricing:** Quote Only

UPC: 756793018936

Fastens: Wood or composite to steel or aluminum

COMPATIBLE TOOL

FLVL43 Floor-level auto-feed driver. 100-screw coil. Stand-up operation across full deck assemblies.

KEY SPECS AT A GLANCE

Size	M6 x 44mm (#14 x 1-3/4")
Material	Type 410 Stainless
Tip	Self-drilling (no pre-drill)
Drive	#3 Square
Qty	1,800 per coil
Pricing	Quote Only

SOLE-SOURCE ADVANTAGE

No competitor makes a collated metric self-drill screw for wood-to-aluminum OEM assembly. Customers running RSM644SFL on the line have no direct alternative. That's a stocking relationship that holds.
